Work

Coil Group

May 2013 - Dec 2013

Web Developer

Tech: HTML 5, CSS 3, jQuery, Django, Responsive Design

- Front-end development / UX strategy for various clients with emphasis on near-exact matching of Photoshop designs and cross-browser compatibility (IE7)
- Internal site designs for marketing and automotive firms
- Music player interface / advertising system design and functionality development for music streaming service

CareTech Solutions

Jun 2012 - May 2013

Web Development Intern, Product Team Junior Developer

Tech: HTML, CSS, jQuery, .NET

- Front-end development for DMC Hospital public-facing websites and internal intranet
- Promoted to Product R&D team for development of the next major iteration of our proprietary CMS platform

Volunteer

Pingree Farms

May 2020 - Aug 2020

Victory Garden Project Coordinator / Volunteer Organizer

Recruitment and development of a lasting volunteer effort to plant/maintain a Victory Garden in the wake of the Coronavirus pandemic, which had significant early impact on the city of Detroit. Our mission was to grow as much healthy produce as possible and share it out to the community through free and open picking as well as distribution to families in Detroit through our partner, Focus: HOPE.

Django Girls

May 2015 - Nov 2015

Event Organizer

Planning and hosting of a programming workshop in Detroit designed to introduce women to software development using the Django web framework.
